About Me

I build fast, accessible web apps and love turning messy data into clear interfaces. Outside work I mentor first-time contributors to open source.

Professional Experience

Software Engineer

Brightline Analytics

Jan 2023 – Present

Austin, TX

- Led migration of reporting dashboards to Next.js, cutting page load time by 45%
- Designed a caching layer that reduced cloud costs by 30% (\$120K per year)
- Mentored 3 junior engineers through code reviews and pairing sessions

Junior Developer

Northwind Labs

Jun 2021 – Dec 2022

Remote

- Built REST APIs in Node.js serving 5M requests per day
- Introduced automated testing that raised coverage from 40% to 85%

Featured Work & Projects
